**Case No:**

1. Minor works, crown lift the row of 10 boundary line mature Limes (purple stars on attached plan) to a height of 5.5m in order to match the current specification applied to the public/carrageway side of the boundary, we would include removal of ivy from the 6 affected trees in the row, this work would allow for a limited improvement as can be imagined from the attached photos.

2. Major works, to include the above, also removal of 16 fastigate Yew trees (red stars on the attached plan) from the main footway/avenue leading to the church. This represents approx. 1/3 of the yew tree avenue. This work would allow for a complete view of the church for approx. half of the available visible range from Main Street, particularly shown in photos 2 and 3.

**DAC Certificate Conditions: -**
